

DESCRIPTION:

- Powder-coated aluminum rail for wall panel sideform and headers
- Stack profiles to build higher configurations
- Drive screws into replaceable wooden core
- Change steel or wood faceplates for custom heights
- Clamp steel faceplates to form
- Fasten to steel decks with magnets
- Tool releases magnet from deck with one-hand operation
- Screw wooden faceboards to form
- Fasten to wood decks with screws
- Brace taller configurations using bolt-on kicker
- Cut to fit with chop saw using carbide blade

RELATED COMPONENTS:

Magnet	T120-3
Clamp	T151-7
Kicker	T151-2
Steel Faceplate - 6"	T151-11
Steel Faceplate - 8"	T151-12
Steel Faceplate - 10"	T151-14
Steel Faceplate - 12"	T151-10
Bulkhead Plate	T151-13
Release Tool	T120-5
T-bolt	T141-1
Washer - M16	T141-3
Wood screw, 1/4 x 3-1/2	T151-15
Wood screw, #8 x 2-3/4	T151-16

TECHNICAL DETAILS:

Rail Height	2-3/4 inches
Rail Depth	3 inches
Weight	2.3 pounds per foot
Standard Length	12 ft
